

MUHAMMAD TALLAL AAMIR

SENIOR SHOPIFY DEVELOPER | LIQUID & E-COMMERCE FRONTEND ENGINEER

Islamabad, Pakistan | +92 312 5126884 | tallalaamir321@gmail.com | Open to Remote International Roles

Shopify Theme Development

Custom Liquid / JS Features

Agency-Ready Delivery

PROFESSIONAL SUMMARY

Senior Shopify Developer with 3+ years of web and e-commerce development experience, including custom Shopify theme development, Online Store 2.0 sections, Liquid architecture, JavaScript interactions, AJAX carts, metafield/metaobject-driven layouts, product customizers, app integrations, payment/booking workflows, and performance optimization. Promoted from developer to Team Lead and Development Lead after consistently solving complex Shopify problems, leading client-facing delivery, and mentoring developers. Strong fit for Shopify agencies and e-commerce brands needing a developer who can join quickly, communicate with clients, own tickets independently, and ship reliable production code.

SHOPIFY EXPERTISE

- Custom Shopify Themes, Shopify Online Store 2.0, Liquid, JSON Templates, Sections & Blocks, Theme Architecture
- Metafields, Metaobjects, Product Customizers, Variant Logic, Dynamic Product Pages, Collection Filtering
- AJAX Cart, Cart Drawer, Upsells, Bundles, Booking/Rental Flows, App Integrations, Payment Gateway Support
- JavaScript, HTML/CSS, Responsive UI, CRO-Focused UX, Speed Optimization, Core Web Vitals, Debugging

PROFESSIONAL EXPERIENCE

Freelance Shopify Developer | Fiverr & Direct Clients | Jun 2023 - Present

- Deliver Shopify theme customizations, custom sections, product pages, landing pages, collection layouts, cart improvements, and troubleshooting for international clients.
- Work directly with store owners and agencies to gather requirements, estimate tasks, explain technical options, and deliver production-ready changes with post-launch support.
- Customize Dawn, Symmetry, Spark, and custom/legacy themes using Liquid, JavaScript, CSS, metafields, and Shopify app workflows.
- Handle practical e-commerce problems including booking flows, subscription/upsell integrations, payment gateway issues, tracking apps, product display logic, and speed improvements.

Development Lead | Shopify & E-commerce Solutions | Noor Ahmed E-Commerce Solutions | Apr 2025 - Jan 2026

- Joined as Shopify Custom Developer and progressed to Team Lead and Development Lead through strong technical delivery, debugging ability, and project ownership.
- Led Shopify development projects involving custom themes, reusable Online Store 2.0 sections, advanced Liquid logic, dynamic filters, AJAX-based components, and metafield-driven layouts.
- Owned client discussions, requirement gathering, task breakdown, scope analysis, architecture decisions, code reviews, team mentoring, and delivery quality across in-house and offshore projects, including Sytrix and Techtrove LLC.
- Improved store maintainability and user experience by removing redundant Liquid/JS, optimizing performance, and building scalable components that non-technical teams could manage.

Shopify Developer (Offshore Project through Noor Ahmed E-Commerce Solutions) | Sytrix | May 2025 - Jan 2026

- Built Shopify stores and feature sets for international brands, including jewelry stores with advanced product customizers and dynamic product experiences.
- Developed customization interfaces for engraving, material selection, sizing, add-ons, live previews, variant handling, and brand-specific product page logic.
- Delivered custom Liquid sections, metafield-powered layouts, performance improvements, debugging, and ongoing store enhancements.

Shopify Developer | Sunskill Technologies | Dec 2024 - Mar 2025

- Developed custom Shopify themes, feature enhancements, app integrations, and frontend improvements aligned with client business goals.
- Optimized store UI/UX and performance to improve browsing, product discovery, and checkout experience.
- Integrated third-party services and APIs to extend store functionality and streamline operations.

Web & App Developer | Global Experts | Dec 2023 - Oct 2024

- Contributed to web and mobile application development using HTML, CSS, JavaScript, Flutter, MERN-stack concepts, and application integration workflows.
- Worked on a Vehicle Tracking System and company website, strengthening full-stack development, UI implementation, and mobile SDK experience.
- Collaborated on design, development, testing, and troubleshooting across web and mobile applications.

Full Stack Developer (Offshore Project through Noor Ahmed E-Commerce Solutions) | Techtrove LLC | May 2025 - Jan 2026

- Built a Trello-style collaboration platform using Next.js, Node.js, MongoDB, and WebSockets, proving broader full-stack engineering depth beyond Shopify.

- Implemented real-time updates, drag-and-drop workflows, REST APIs, state management, and scalable frontend/backend architecture.

Training Officer - Advanced Python & Software Development | Roshan Hunar Markaz, Gujar Khan (NAV TTC Project) | Feb 2026 - Present

- Deliver Advanced Python and software development training under NAV TTC skills development initiatives, strengthening communication, mentoring, and technical explanation skills.
- Design practical labs, assessments, and project-based learning exercises for programming and software development students.

SELECTED SHOPIFY & E-COMMERCE WORK

Advanced Jewelry Product Customizer - Built product customization flows for jewelry stores with engraving, materials, sizing, add-ons, variant logic, dynamic display rules, and live product-page interactions.

Tech/Tools: Shopify Liquid, JavaScript, Metafields, Product Templates, Variant Logic

Dressed For Dinner - Rental Store Enhancements - Customized Shopify rental workflows, booking/calendar behavior, product/collection presentation, FAQ sections, and user-experience improvements for a dress rental brand.

Tech/Tools: Shopify Theme Development, Liquid, JavaScript, Booking Workflow, Custom Sections

Custom Shopify Theme Components - Developed reusable sections and conversion-focused UI components including product tabs, collection carousels, mega menus, custom footers, FAQ blocks, cart interactions, and responsive landing page layouts.

Tech/Tools: Liquid, JSON Templates, CSS, JavaScript, Online Store 2.0

Cart, Upsell & App Integration Workflows - Worked with cart drawers, AJAX cart behavior, bundle/upsell flows, tracking apps, subscription/booking flows, payment gateways, and theme-app integration issues.

Tech/Tools: AJAX, JavaScript, Shopify Apps, Liquid, Cart Logic

FULL-STACK PROJECTS SUPPORTING SHOPIFY WORK

Car Zone Portal - Vehicle Auction Platform - Built a working auction platform with user registration, inventory management, bidding workflows, admin dashboards, winner selection, and role-based access. Live project: <https://car-zone-portal.vercel.app/>

Tech/Tools: Next.js, React, Node.js, Supabase, PostgreSQL, Authentication

Trello Clone - Real-Time Work Management App - Developed a real-time collaboration platform with boards, lists, cards, drag-and-drop workflows, multi-user updates, backend APIs, and state management.

Tech/Tools: Next.js, Node.js, MongoDB, Socket.IO, Zustand

TECHNICAL SKILLS

Shopify: Liquid, Online Store 2.0, JSON Templates, Sections/Blocks, Metafields, Metaobjects, Shopify CLI, Theme Kit, Theme Customization, Shopify APIs, App Integrations

Frontend: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Responsive Design

Backend/Integrations: Node.js, Express.js, REST APIs, WebSockets, Authentication, Third-Party APIs

Data/Cloud/Tools: MongoDB, PostgreSQL, MySQL, Firebase, Supabase, AWS S3, CloudFront, Git, GitHub, Netlify, VPS Deployment

Additional: React Native, Flutter, Python, C#, SQL

EDUCATION

Bachelor of Science (BS) in Bioinformatics - COMSATS University Islamabad
